EXPO2016

Lead Yourself to
Economically Superior Pakistan

August 9, 2016
Superior University, Lahore

Celebrating Independence with Technological Revolution

It's our time to
CHANGE IT

It's your time to invest!

Setting Tomorrow's Environment

SUPERIOR Technopreneurial EXPO 2016

August is the month of independence, patriotism with a promise to create an economically Superior Pakistan which identifies its true spirit, tradition, culture and identity.

Chaudhry Muhammad Akram Center for Entrepreneurship Development with its passionate pursuits is all set to raise the benchmark. Technopreneurship, a subject first time ever introduced in Pakistan by Superior University under auspices of CMACED. In just six months 48 new projects opened to investments are ready to be showcased in STE 2016.

CMACED presence in this expo is a continuation of its vision under the leadership of Dr Sumaira Rehman who believes that change from within transforms new realities. This 'Self-discovery' is directly proportional to a strong tomorrow which will equip our future with the right recipe of success i.e. "self-esteem". Today is our time to change IT and coming together is beginning, staying together is progress and working together is success. So, on this independence day let's promise ourselves to remain united and develop leaders who can create economically Superior Pakistan.

May this initiative become a catalyst in finding more technopreneurs for a Superior Pakistan.

Superior Technopreneurial Expo 2016 Objectives

- To enhance the entrepreneurial mind sets among students
- To develop managerial skills and professionalism
- To showcase the students' projects for evaluation purpose
- To attract the potential investors
- To trigger the possibilities of clientele attraction for students' projects

Ch. Muhammad Akram (Late)

Founding Chairman The Superior Group

CMACED
CHAUDHRY MUHAMMAD AKRAM
CENTER FOR ENTREPRENEURSHIP
DEVELOPMENT

In 2016, the CMACED research wing came up with a unique subject "Technopreneurship". It was observed that IT industry is inundated with the specified skills and abilities and a minimum capital is required to transform their dreams of economic independence into reality. CMACED is already a torchbearer in developing new entrepreneurs and grooming individuals for a Superior tomorrow. CMACED has proudly conducted the following grand events of high value:

• Entrepreneurial Gala

• Technopreneurial fiesta for IT graduates

• Research funding facilitates for groundbreaking research

• Regular forums with distinguished business tycoons, Brand yourself to inspire and customer care to ensure learning-by-doing

• Strong industry linkages with the public sector and multinationals.

Our international partners applauded this creative leap mentioning that this subject would be a part of every curriculum in the years to come. Being the pioneer of teaching Technopreneurship in Pakistan, we have set a standard that other universities will follow suit. We are an emotionally intelligent institute and we believe in touching the brains and hearts of the students through our commitment, passion and dedication. Our every endeavour is towards creating a Superior Pakistan where the giver is far better than the receiver. May ALLAH give us the courage to strengthen the human capital of Pakistan.

Message
Dr. Sumaira Rehman
Pro-Rector Superior University

Aiming to 'facilitate Superior human beings', we have initiated a learning environment focused on sense of purpose, teamwork, excellence, creativity & innovation and reward for performance. These values reflect the mindset which enables our students to lead for a Superior future of Pakistan.

The Superior Group is the fastest growing institute with its continuous endeavors filled with creativity & innovation and emotional intelligence. There is no denying the fact that self reliance and entrepreneurship is the key to progress in 21st century for which emotional intelligence is the pre-requisite.

Chaudhry Muhammad Akram Center for Entrepreneurship Development (CMACED) under the umbrella of Superior University has a dedication for raising entrepreneurs and promoting leadership. To strengthen entrepreneurial mindset in the field of IT, CMACED has introduced a unique subject "Technopreneurship" at the Department of Computer Science & Information Technology.

Within the six months of Technopreneurship studies, we have successfully enabled our students to think differently, recognize opportunities, turn opportunities into successful projects, value learning by doing, bring creativity and innovation in practice and finally help in developing economically Superior Pakistan.

Our vision of developing entrepreneurial mindset and transforming opportunities into workable solutions has now turned into reality in form of Superior Technopreneurial Expo 2016.

The 48 IT Business projects presented by 240 students of CS & IT give a glaring proof of the fact that we encourage our students' creativity and critical thinking. These business plans are evaluated and highly appreciated by the IT tycoons of Pakistan.

I am amazed at the level of competence and creativity demonstrated by our young future entrepreneurs. I want to congratulate the entire team of Technopreneurship for the effort and dedication that has brought you to this day. I am really proud of you and your achievements and welcome you to the new world of opportunities where you can truly make a difference to make Paksitan an economically Superior Paksitan.
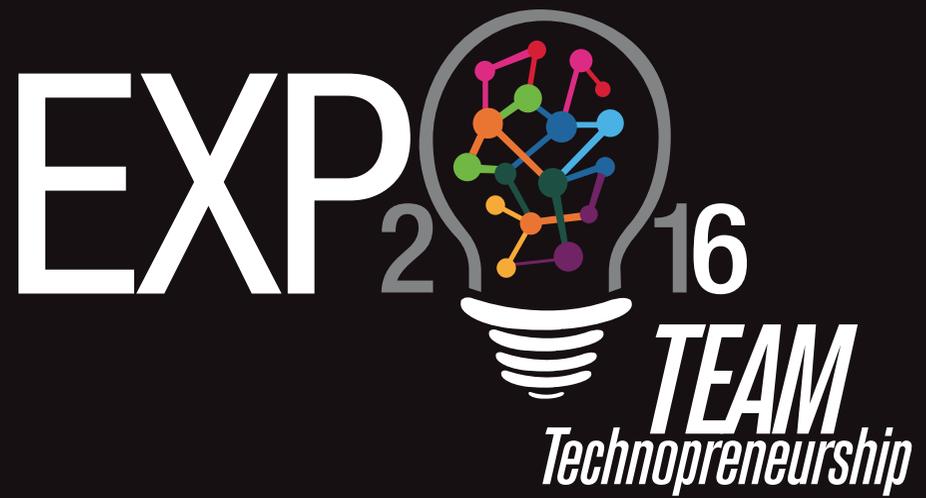

Bravo Future Technopreneurs!

Message
Prof. Dr. Abdul Aziz
Dean CS & IT

You must fall in love with what you do, because being an entrepreneur is a lot of hard work, and overcoming a lot of adversity. From that love will come the dedication that will get you out of bed at 4 a.m. because of a great idea you just had and get you to work till 11 p.m. and not feel tired. Success is not the key to happiness. Happiness is the key to success. If you love what you are doing, you will be successful.

The price of success is hard work, dedication to the job at hand, and the determination that whether we win or lose, we have applied the best of ourselves to the task at hand.
